Subject: Annual Maintenance Contract

Dear Sir,

It is our pleasure to be associated with reputed organization like yours, during this period, we have sincerely tried to provide you best service, train the user group and assist them in all possible ways, our support engineers have several times visited your campus and provide you onsite support and services

It is now time to further strengthen our relationship by signing Annual Maintenance Contract. Under this maintenance contract following services will be given

- 1) **Free training to the user's:** Modulewise training to the college educate system user's.
- 2) **Unlimited telephonic support:** We have established 12x7 help line to solve your queries over phone (Timing: 10 am to 6 pm)
- 3) **Unlimited remote desktop connectivity support:** Under this services our engineers would view your computer from our office over internet, solve your queries remotely and provide you all support.
- 4) **Free license generation (Installation on computer)** across the year.
- 5) **Free software consultancy:** Our domain experts will provide you software consultancy, share with you the best practices us has learned from other organizations and inform you time to time about new automation products

We have enclosed our Performa invoice for the **Annual Maintenance Contract will commence on 01st March 2022 and will be valid for 1 (one) year there after i.e. up to 28th February 2023** and the charges for this Annual Maintenance support would be 9000/- Only.

Kindly acknowledge the receipt of this letter and provide your consent for the same.

We once again want to stress that **A SQUARE SOFTWARE SERVICES** is committed to provide you the best services, quality software and enable you to stay ahead in the world in terms of automation and recent developments in technology

Looking for your kind cooperation and support.

Thanks and regards

JKK

Introduction

About the Company

Mission

Our mission is to provide our clients with the highest quality available technical and functional services across the enterprise. Our commitment is simple – **customer satisfaction**. Our means are invaluable – **hard work and dedication**.

Overview

Akash Infotech is a professional services provider specializing in Enterprise Resource Planning, Enterprise Relationship Management, E-Commerce applications and Customized Software Development. Akash Infotech has vast experience in full-scale IT implementation, integration and development services, staff augmentation and individual tasks.

Akash Infotech is one of the fast upcoming IT companies committed to providing the best business application solutions.

We undertake projects from the pre-implementation to post-implementation stage including Software evaluation, Project management, Analysis, Customization, Design, Development, Testing and implementation of application software. We have vast pool of consultants with project experience.

Our **Quality Motto** of the company has been '**Commitment towards Perfect & Accurate Software & Service Support to the Customer**' with an objective of promoting professionally managed Software Business houses to provide excellent Software Support globally all over India.

The company has well infrastructure & SETUP with the latest state-of-the-art hardware including Higher end servers & Latest PCs, ISDN connectivity with private secured web Server, in house multimedia equipments & peripherals like scanners, digital camera and audio-video blaster pro card and adequate power backup for the whole system.

About the AutoLib NG

AutoLib NG is the real-time online Library solution. **AutoLib NG** has been designed for integrated information management. This comprises of independent modules for facilitating library management, querying, porting the information. The software package covers all areas within the librarian for efficient information management. Simultaneously, it provides a priceless tool to all members, to have these resources at their fingertips.

Database Security Data security is of most important aspect in Library. Unique Login feature for each user ensures safety of data. **AutoLib NG** has rights definable as per Users profile to Every Menu option. The Login and Passwords may be assigned to groups of individuals depending on their designation or department. In addition, every User can have an individual password to access his personal information (e.g. Books outstanding etc.). For e.g. you may allow public access only to the book search, book reservation features and not to the features of adding, modifying book record or for that matter to the facility of making a book return entry, while the Librarian should have access to all the features. **AutoLib NG** makes this easy.
