Subject: FEEDBACK on the professional Skills Development Programmes offered by Prof. Sambhajirao Kadam College of Arts, Commerce and Science, Deur-Koregaon

Dear Sir,

It is learnt that, the College has introduced the self-designed Professional Skills Development programmes in an emerging field of International Trade and GST Law for the students who are pursuing their conventional degree education.

At the outset, we say that, the MAS feels privileged to appreciate and congratulate the institute for such an initiative, which in itself is unique, offering an opportunity for the students to equip themselves with highly specialized professional skills through these programmes that will earn them sustainable employment on acquiring the degree with Professional skills in International Trade and GST Law, thus making the conventional degrees worth securing highly rewarding jobs.

We also had an opportunity go through the contents of the sole Books on International Trade and GST Law, authored by Er Arvind Kadam- Entrepreneur, Innovative Engineering (Manufacturing & Export Venture). We must say that both the books are extremely useful for students, faculty and even to the practicing professionals in the filed as manuals.

By offering these professional programmes, the institute has provided a pragmatic solution to the problem of employability ever faced by the Higher Education and credibility of the conventional degrees. These programmes will definitely help to overcome Industry-Academia gap which is probably the most discussed thing by employers and job seekers in recent period.

Now, the institute has been admitted to the privileges of MAS by granting membership to it, the only conventional college being offered the MAS membership.

Being associated with us, we are sure that our collaboration would go a long way and would prove immensely beneficial for the student's progression.

Thanking You
for Manufacturers' Association of Satara

Uday Deshmukh
President
