Prof Sambhajirao Kadam College

Deur, Satara

Subject: Feedback on Curriculum Development

Ref: Off-campus placement drive dated 14/02/2019 & Your letter seeking feedback

Dear Sir,

While interviewing your graduated youths, it is noticed that the candidates are not updated with the knowledge of GST Law, though it is introduced at national level, in the year 2017. Right now, there is a huge vacuum of GST Professionals in employment market.

It means that the syllabus of ongoing programmes, prescribed by the university, is not updated leading to unemployment. The most of the candidates are also found to be lacking in computing/soft skills.

There is a need to update the curriculum regularly according to the changing requirements of employment market to overcome Industry-Academia mismatch.

As an employer, we feel that the degree shall be made worth employable by

- Equipping students with the specialized knowledge in emerging professions by designing curricula for the professional skill development Programme such as **GST Law- Operational Procedures & Practices**, which will result into the gainful & sustainable employment
- Focusing on application-based learning through Internships/ Experimental learning etc.

If the institution takes initiative to equip students with specialized knowledge/ skills & make them employable, we would like to support you in the form of – GST return filing, Practicals, internships etc.

Best regards,

For Excel Fishnets

Authorised Signatory

Mrs. Prajakta Kadam
