Objectives:

- To impart general awareness on rain water harvesting
- To impart general awareness regarding Bore Well Recharge
- To encourage common public to participate in Roof water harvesting
- To encourage common public to participate in Bore Well Recharge.
- To prepare students as Volunteers and help them to contribute in nation building through NSS.

About the Programme / Activity:

• Deur:

The institutional campus used to have a severe water scarcity problem, especially during the summer days. The bore well output was too short to satisfy the daily water requirement of the institution. Considering this, the college decided to undertake the bore well recharge project, a pilot project, kindly supported by Innovative Engineering, Satara (The Export Venture).

Dahigaon:

After successful completion of the Pilot Project in the institutional campus, the College decided to implement the same bore well recharge project under its ISR initiative in the adjoining Dahigaon village. This village, situated towards 3 km west of Deur, also used to have the similar water problems and periodic drought-prone conditions. With no assured irrigation facilities, the farmers used to rely on rainfall and some unfruitful bore well facilities created on their own. The college surveyed the number of existing bore wells, the water level, water output, locations etc. and decided to run the Project with the public utility bore wells. second project under ISR was conducted This collaboration with Rotary club of Satara.

Palshi:

Based on the encouraging results, we decided to implement the next project in Palshi village in collaboration with the local *Shri Datta Mandir Yog Ashram Trust*, Palshi.

Tadawale:

After successful completion of the Pilot Project in the institutional campus, Dahigaon and Palashi village, the College decided to implement the same bore well recharge project under its ISR initiative in the adjoining Tadawale (S.W.) village. This village, situated towards 8 km west of Deur, also used to have the similar water problems and periodic drought-prone conditions. With no assured irrigation facilities. The college surveyed the number of existing bore wells, the water level, water output, locations etc. and decided to run the Project in Primary School, Tadawade (S.W.) Tal. Koregaon, Dist. Satara.. This under ISR conducted in collaboration project was with Vasundhra Swachata Abhiyan, Pune.

चार मिनिटांची बोअर वाहू लागली ११ तास

देऊर कॉलेजच्या प्रकल्पाची किमया : जलसंधारणात घडवली क्रांती

कोरंगाव तालुक्यातील देकर येथील प्रा. संभाजीराव कदम महाविद्यालयाने राववलेल्या रेन हार्वेस्टींग व बोअरवेल रिचार्जच्या अनोख्या उपक्रमाने जलसंधारणात क्रांती घडकली आहे. महाराष्ट्रात आगळ्या तेमळ्या तरलेल्या या

सातारा : योगेश चौगले

उपक्रमाने अवधी तीन ते चार मिनिटे चालणारी बोअर चक्क धो धो भरून बाहू लागली आहे. ११-११ तास पाणी आता उपलब्ध झाले आहे. कायम दुष्काळी असलेल्या कोरेगावच्या उत्तर धागात ही किमया झाली आहे.

कोरेगाव तालुक्याच्या उत्तर भागाला दुष्काळाचा कलंक आहे.

देऊर महाविद्यालयाच्या विद्यार्थ्यांनी राववलेल्या या उपक्रमाने जलसंधारणात मोठी क्रांती घडून आली.

येथील अनेक गावे दरवर्षीच टंचाईने होरपळून जातात. या गावांची, येथील जनतेची टंचाई व दुष्काळामुळे होणारी तडफड वर्षानुवर्षे असह्य करत आहे. याच भागातील देकरच्या मुधाईदेवी

शिक्षण संस्थेचे प्रा. संभाजीराव कदम महाविद्यालय विविध सामाजिक उपक्रम राबवण्यात आघाडीवर राहिले आहे. आपल्या भागाची होणारी होरपळ मनाला डागण्या देत असल्याने काही तरी विधायक करून दाखवण्याच्या व दुष्काळात पिचलेल्या जनतेच्या हितासाठी या महाविद्यालयाने अनोखा उपक्रम राबवला आहे. संस्थेचे विश्वस्त अरविंद कदम व प्राचार्य

प्रकल्प ठरतोय मैलाचा दगड

प्रा. संभाजीराव कदम महाविद्यालयाने जलसंघारणाचा विद्या उचलला आहे. सामाजिक बांधिलको जोपासणाऱ्या या महाविद्यालयाने दिष्टगाव, पळशी, पिंपोंडे खुदं, देऊर व आर्दकी खुदं या गावात रेन हार्वे स्टींग व बोअरवेल रिचार्जचे काम हाती घेतले आहे. हा महाराष्ट्रातील एक अगळावेगळा उपक्रम अस्नु जलसंधारणात तो मैलाचा दगड ठरत आहे. महाविद्यालयाच

महाविद्यालयाच्या माध्यमातून राबवण्यात आलंख्या या प्रकलपांतर्गत कोरंगाव तालुक्यातील दिह्माव येथे सर्व्हें करून तीन बोअरवेलची निवड केली. भूगर्भातील पाणी पातळी कमी झाल्याने या बोअरवेलला तुरळक प्रमाणात पाणी येत

होते. महाविद्यालयातील राष्ट्रीय सेवा योंजनेतील विद्यार्थ्यांनी घराच्या छतावरील वाहून जाणारे पावसाचे पाणी पणाळ व पाईपच्या सहाय्याने बोअस्लान जामनीत सुरवते. हे पाणी जमीनीत सुरवल्याने मूगर्पातील पाणी पातळी वाहण्यास सहाय्याने ३-४ मिनिट चालणारे बोअस्वेलचे पाणी आता सल्या ११ तास चालत आहे.

- अरविंद कदम, विश्वस्त, मुधाई देवी शिक्षण संस्था, देऊर

भारत भोसले यांच्या संकल्पनेतृत रेन हार्नेस्टींग व योअरवेल रिचार्ज हा नाविन्यपूर्ण उपक्रम समोर आला आहे. दिहागाव, पळशी, पिपीडे खुर्व, देकर व आर्टकी खुर्द या गावांची भूगभतिल पाणी पातळी वाढवण्याच्या एक्सेणातृत या उपक्रमांतर्गत विविध कामे महाविद्यालयपतील राष्ट्रीय सेवा योजनेतील विद्यालयांनी सुरु केली आहेत. त्यानुसार बंद पडलेल्या बोअरचा सर्वें करण्यात आला. त्यानंतर विद्यार्थ्यीन पावसाचे वाह्न जाणारे पाणी अडवण्याच्या दृष्टीने या गावात जनजागृती केली त्याचवरोबर हे पाणी त्याच ठिकाणी जमीनीत मुस्तृन भूगर्भातील पाण्याची पातळी वाढवण्याचा प्रयत्ने केला आहे. महाव्यवलेला हो प्रकल्प महाराष्ट्रातील एक आगळावेगळा प्रकल्प आहे.

Rain Water Harvesting Project in the College Sponsored by Innovative Engineering, Satara (in Dahigaon)

RAIN WATER HARVESTING BORE WELL RECHARGE PROJECT UNDER INSTITUTIONAL SOCIAL RESPONSIBILITY

1. BACKGROUND

Prof. Sambhajirao Kadam college is located in Deur in the northern area of Koregaon tahasil which is known for periodical droughts. Due to lack of assured irrigation facilities, farmers are mostly relied on rainfall and scanty bore well facilities created on their own. As a result, water table has been gone down upto 300 to 400 ft. More so, most of the bore Wells have run dry in the region. Besides, the region faces severe scarcity of drinking water; the conditions become even acute during summer. Owing to this, the projects like rain water harvesting, bore well recharge would improve the water table that would provide a sort of reprieve in dealing with the problem of water scarcity prevalent in the region.

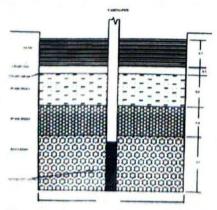

Pilot project

The college was also facing a severe water scarcity problem especially during the summer. The bore well output was too short to fulfil the water requirement. Hence, the college decided to undertake the bore well recharge project by collecting the roof water.

details of the project with water output before and after the recharge

To,

Dr Bharat N. Bhosale, Principal, Professor Sambhajirao Kadam College, Deur Tal- Koregaon, Dist- Satara.

Letter of Appreciation

Dear Sir.

I came to know that Professor Sambhajirao Kadam College, Deur has undertaken in collaboration with Rotary Club, Satara, the Rain/Roof Water Harvesting and Borewell Recharge project in five villages at the places of public utility viz. Deur, Dahigaon, Pimpode, Wathar, Palashiall situated in drought prone zone of Koregaon Taluka. The project has been greatly lauded by the press both in print and electronic media!

On the occasion of valedictory function organised to mark the successful conduct of a weeklong NSS residential camp at Tadavale on 28/03/2022, I had a privilege to grace the function as the chief guest. The most appreciable programme undertaken during the camping that I noticed is the bore well recharge through roof water harvesting erected at the public utility place in Tadavale. Being the people's representative, I am glad to place on record that such an initiative by the educational institute happens to be perhaps the first of its kind in the entire state of Maharashtra; that itself speaks for the institutional sensibility towards the society at large and its proactive responsiveness to the National Jal Mission being propagated across the Nation. I sincerely hail the Institution's efforts; which has come forward with a solution to the water scarcity problem ever faced by the people of the region, thus, thereby setting the unique example that the other educational institutes to follow!

In recognition thereof, this letter of appreciation is issued to the institution for showcasing its commitment to the social cause the institution is championing and proactively coming forward with solution to the problem ever been faced by the people in the region.

I extend my support to the institution and wish the Institution every success in its future endeavours!

Best regards,

(shri. D. P. Chavon)

Institutional Sensitivity towards Climate Change and Environment Concerns

A Project Displaying Institutional Distinctiveness: Rain Water Harvesting & Bore Well Recharge Project under Institutional Social Responsibility

Background:

Prof. Sambhajirao Kadam College is located in Deur in the northern area of Koregaon tehsil which is known for periodical droughts. Due to lack of assured irrigation facilities, farmers are mostly relied on rainfall and scanty bore well facilities created on their own. As a result, water table has been gone down up to 300 to 400 ft. More so, most of the bore Wells have run dry in the region. Besides, the region faces severe scarcity of drinking water; the conditions become even acute during summer. Owing to this, the projects like rain water harvesting, bore well recharge would improve the water table that would provide a sort of reprieve in dealing with the problem of water scarcity prevalent in the region.

Pilot project

The college was also facing a severe water scarcity problem especially during the summer. The bore well output was too short to fulfil the water requirement. Hence, the college decided to undertake the bore well recharge project by collecting the roof water.

Schematic diagram of the Model:

The cost for the college project was around Rs. 000/- including roof water harvesting and recharge.

Reference data:

i. The college has been implementing the Society outreach activities under the central government's flagship programme-Unnat Bharat Abhiyan since 2018. One of the prominent activities under UBA is conducting house hold survey of the five selected villages. As a part of the activity, the college has conducted the survey on the number of bore Wells with the present conditions as to water level, water output, locations etc.

• Bichukale **Village**:

successful completion of the Pilot Project in the institutional campus, Dahigaon, Palashi and Tadawale (S.W.) village, the College decided to implement the same bore well recharge project under its ISR initiative in the This village, situated towards 6 km west of adjoining Bichukale village. Deur, also used to have the similar water problems and periodic droughtprone conditions. With no assured irrigation facilities. The college surveyed the number of existing bore wells, the water level, water output, locations etc. and decided to run the Project in Primary School, Bichukale Tal. Koregaon, Dist. Satara.. This under **ISR** conducted in collaboration with project was Vasundhra Swachata Abhiyan, Pune.

Future Plan: Based on the encouraging results, the college decided to implement the project in remaining villages, few bore Wells per village using reference data with the support and people's participation. Preference is given to the public utility bore Wells.
